

ADDITION 1°

1. Represent the number on top:

$$\begin{array}{r} \text{T} \ 0 \\ 5 \ 2 \\ + 3 \ 5 \\ \hline \end{array}$$

2. Represent the number down:

$$\begin{array}{r} \text{T} \ 0 \\ 5 \ 2 \\ + 3 \ 5 \\ \hline \end{array}$$

3. Start with the ones. You need to solve 2 plus 5.

$$\begin{array}{r} \text{T} \ 0 \\ 5 \ 2 \\ + 3 \ 5 \\ \hline \end{array}$$

4. Continue with tens. you need to solve 5 plus 3.

$$\begin{array}{r} \text{T} \ 0 \\ 5 \ 2 \\ + 3 \ 5 \\ \hline 8 \ 7 \end{array}$$

So
 $52 + 35 = 87$

$$\begin{array}{r} \text{T} \ 0 \\ 5 \ 2 \\ + 3 \ 5 \\ \hline 8 \ 7 \end{array}$$

ADDITION 1°

1. Represent the number on top:

$$\begin{array}{r} \text{T} \ 0 \\ 5 \ 2 \\ + 3 \ 5 \\ \hline \end{array}$$
