

SUBtraction 1°

1. Represent the number on top:

$$\begin{array}{r} \text{T} \quad 0 \\ 5 \quad 8 \\ - 3 \quad 5 \\ \hline \end{array}$$

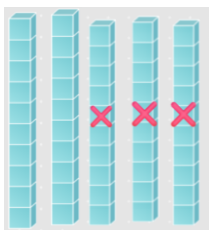

2. start with the ones. you need to solve 8 minus 5.

$$\begin{array}{r} \text{T} \quad 0 \\ 5 \quad 8 \\ - 3 \quad 5 \\ \hline 2 \quad 3 \end{array}$$

3. Continue with tens. you need to solve 5 minus 3.

$$\begin{array}{r} \text{T} \quad 0 \\ 5 \quad 8 \\ - 3 \quad 5 \\ \hline 2 \quad 3 \end{array}$$

So $58 - 35 = 23$

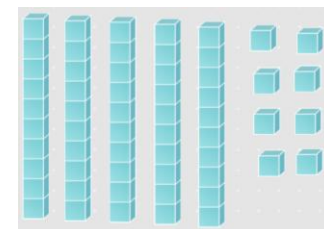

$$\begin{array}{r} \text{T} \quad 0 \\ 5 \quad 8 \\ - 3 \quad 5 \\ \hline 2 \quad 3 \end{array}$$
